**MAINTENANCE EQUIPMENT FOR WORKSHOPS
STEEL INDUSTRY, ROLLING MILLS**

**EFFICIENT MAINTENANCE, THE RIGHT EQUIPMENT FOR THE
JOB, PROCESS OPTIMISATION, SAFE AND EASY TO USE**

BETEX HXPM 50T

BETEX HXPM 100T

BETEX MF QUICK-HEATER 22KW

BETEX MF QUICK-HEATER 44KW

BETEX HXPM 150T

Mobile Hydraulic Pullers

Self-centering 2/3 arm pullers, 30 - 50 - 100 - 150 tons capacity. For dismounting of all kinds of transmission parts such as bearings, couplings, gears, wheels etc.

The pullers are self-centering, easy to maneuver and adjustable in height. Arms slide inwards or outwards simultaneously. Convert to 2-arm or 3-arm puller.

The harder the force, the tighter the jaws grip. The arms cannot bend or deflect. The integral safety release valve prevents overloading and ensures that you will never exceed the maximum power capacity.

	HXPM 50t 2/3 arm	HXPM 100T 2/3 arm	HXPM 150T
Max spread	1250mm	1500mm	1600mm
Max shaft length	780mm	1215mm	1150mm
Max stroke	330mm	270mm	325mm

APPLICATION EXAMPLES IN

Steel industry | Paper & Printing | Machine building Service and Repair sector | Mining | Wind power | Rail & Metro

Induction heaters for mounting & dismounting

For bearings, labyrinth rings, bearing rings (NU, NJ), sleeves, bushes, couplings, gears, wheels, wheel rings, etc.

Middle frequency induction heating is a safe and effective heating method, which improves the quality of installation or maintenance. This method is fast, simple and energy efficient, compared to conventional methods.

Using the BETEX MF Quick-Heater, parts can be heated in a clean, controlled and even manner. This avoids damage or contamination. Depending on the application, you can use **fixed or flexible inductors**. Flexible inductors can be wound around, or in a component. As a result, many applications are possible. The heater is easy to transport and can be moved to where needed on site.

INDUCTION HEATERS

bearings, couplings, wheels, gears, etc...

**MADE
IN
HOLLAND**

HYDRAULIC PULLERS

4-50 ton capacity

SELF CENTERING

WORKSHOP EQUIPMENT

HANDY PUMP AND SPREADER/LIFTER

sets in case, 700 bar

INDUSTRIAL HYDRAULIC EQUIPMENT

electric pumps, cylinders, 700 bar
